About Project Happiness

Project Happiness has an actively engaged global community of people who are eager for tips on happiness. As we have grown, our ability to deliver content in innovative, and purposeful ways has also expanded through targeted programs.

Circles by Project Happiness is a membership-based online community offering inspiration to individuals gathering around the world. We aim to bring together groups of people, and make those gatherings purposeful and uplifting, but we need you!

You, our affiliate authors, represent experts in the well-being community! As a featured author, you will have the visibility of a global stage to inspire people to action, discover new capacities, and to pursue dreams and goals with the support of a powerful community.
